Whales.

New York, 14.—The steamship *Andes* which arrived yesterday from South America, reports passing a large school of whales, about 100 hundred miles east of Cape Henry. The whales seemed as seen from the deck of the vessel to be from ninety to 100 feet in length.

The "Black Hand" Society.

Lisbon, 14.—The existence of a branch of the "Black Hand" society has been discovered in the northern part of Portugal. Several of the members are arrested and important papers seized. Troops were sent to the locality.

The Flood.

Helena, Ark., 14.—A decline of one inch during the night. A line of skiffs has been put on between this point, Jonesdown and Clarksdale, Miss. Flat boats are delivering goods back through the country inaccessible to steamers. Business generally is resuming. For the first time for many years there is a swift current coming down shore indicating a disposition on the part of the river to change its channel again in this vicinity. Should this occur the big bar in front of Helena will be greatly diminished if not washed entirely away whilst the old river, the present channel, will again fill up.

Miscellaneous.

Staunton, Va., 13.—The poison which recently killed some patients in the asylum was not used by the physicians for over a year.

Louisville, Ky., 13.—Mrs. Mary Car died at her home in this city this morning, aged 84 years. Mrs. Car is the mother of Mrs. Henry Honore, Chicago and grandmother of Mrs. Col. Fred. Grant, and Mrs. Potter Palmer, of Chicago.

Reading, Pa., 13.—Lebanon classes of the reform church of the United States, have found Rev. Alex. S. Keiser of Pottsville, guilty of unlawful intimacy, breach of promise of marriage, and falsehood, and deposed him from the Christian ministry.

San Francisco, 14.—The Legislature adjourned last night *sine die*.
Harrisburg, 14.—Among the bills introduced to-day in the senate, was one preventing the cremating of human bodies.

Chicago, 14.—This morning at the request of the board of trade the Western Union telegraph ceased supplying market reports to the open board and the wires connecting it with the regular board were cut. This was a surprise, as the understanding of the open board people was that they would not be molested not having joined the bucket shops in the legal fight. It is said the open board will be enabled to continue business by getting quotations of the Chicago market from Milwaukee.

Philadelphia, 14.—The will of Henry Siebert, bequeathing over a million to charities, was admitted to probate.

New York, 14.—The general passenger agents passed a resolution demanding that a doctor's certificate should accompany every corpse carried on the different roads to prevent the spread of contagious disease.

Chicago, 14.—The charge of embezzling \$5,500 in money and goods preferred against W. C. Green by the Ferry Clock Company, Pittsfield, Mass., of which Green is agent here. Green says that the action is brought in malice, because he would not break his contract and let the company put up the price on the clock on which it has a monopoly.

Pittsburg, 14.—A shooting tournament will be held here on April 3d, 4th, 5th and 6th. The first day Captain Bogardus and Dr. Carver will contest for a purse of \$800.

Uniontown, Pa., 14.—In the Dukes' trial, to-day, the jury returned a verdict of acquittal, and the prisoner was discharged. Great dissatisfaction at the verdict.

Desperate Burglars.

Omaha, Neb., 14.—At 2 o'clock this morning five masked burglars entered the residence of Eugene O'Neill and subdued and robbed the inmates of \$900 in money, and a watch and jewelry amounting to \$200. Three of the burglars had a fight upstairs with Mr. Rusch and his two boys, and finally overpowered them, but not until after Mr. Rusch had been slightly wounded in the forehead with a revolver shot. While this fight was going on Mr. and Mrs. O'Neill and their niece, Miss James, were under the guard of two burglars downstairs. The robbers escaped. Three suspicious characters have been arrested.

San Francisco, 14.—At the regular monthly meeting of the triennial convocation committee of Knights Templars, to-day, the value of the four trophies was fixed at \$800, \$500, \$400 and \$300 respectively. The committee on transportation reported round trip tickets from New Orleans at eighty, and from all points not specially fixed, one fare for the round trip not to exceed \$75 from points west of Omaha; from St. Louis and return, \$75.

Foreign.

Athens, 14.—The King and diplomatic representatives were present at Comodouros' funeral in the cathedral. The procession was of extraordinary proportions. Prime Minister Tricoupis delivered the oration at the tomb.

The Irish.

London, 14.—A meeting of Irish, Scotch and English members of Parliament was held yesterday, at which it was decided to form a political committee with the view to informing public opinion in regard to Irish reforms. The committee is quite an impartial one. No Parnellites are connected with it.

In the Commons to-day Parnell moved the second reading of his bill amending the land act. He said the agitation in Ireland must continue to increase until the act was amended.

Chaplin, conservative, moved the rejection of Parnell's bill. Thos. Dickson, liberal supported the measure, because it embodied the programme adopted by the conference of Ulster tenants. Gladstone said the land act was far more efficient than Parnell had described. He said Parnell's bill amounted virtually to a remodelling of the land act.

Gladstone strongly denounced Parnell's statement that courts imposed rack rents. He insisted that tenants were willing to pay the rents fixed by the courts. He hoped Parnell would give assurance that the new crusade would be conducted in a strictly legal manner. It would be in violation of the duty of government to demand the further sacrifice from land lords. Gladstone's remarks were repeatedly cheered by members.

The second reading of Parnell's bill was then rejected by a vote of 63 ayes to 19 noes.

Dublin, 14.—The secret inquiry at Dublin Castle to hear the evidence of informers continues daily. As no details are made public no intelligence can be gained of the evidence thus far adduced, but the star chamber manner in which the proceedings are being conducted has given rise to some ugly suspicions. It is now openly charged that various informers have been carefully "coached," and that the testimony to be presented at the trial the evidence will clearly show this. Three or four persons were examined yesterday as to the movements from June to December last, of twenty-one prisoners now awaiting trial for conspiracy to murder. A number of witnesses supposed to be able to give evidence of a similar character have been summoned to attend to-day. The men in Kilmainham prison charged with conspiracy to murder, continue in good health, with the exception of Patrick Delaney, charged with attempting to murder Judge Lawson. They are kept in solitary confinement, with the exception of two hours every day, when they are marched around the yard at a certain distance from each other. Even when one of them is allowed to see a legal adviser, a large table separates them, and the warden is present at the interview; besides armed police are also present. The jail is guarded both night and day by soldiers.

Dublin, 14.—It is stated that Joe Brady, conspiracy prisoner, has confessed that he murdered Lord Frederick Cavendish and Burke.

New York, 15.—Egan will remain in New York until next week. He is much harassed by reporters. He said Parnell would soon be here also; he ridiculed Parnell, declared he was one of the ablest managers in the world.

The Train Robbers.

Little Rock, 14.—It is considered almost a certainty that the three desperadoes who stopped the Fort Smith Railway passenger train at Mulberry a week ago to-day, and murdered Conductor Cain and wounded Lester, brakeman, will be captured to-morrow. There were four in the party, one of whom, MacDonald, was captured the morning after the crime, having been shot by one of his companions, who mistook him in the excitement. MacDonald gave a story to the officer, who personated a fellow prisoner, and offers to conduct the officers to a cave, where they were to rendezvous, if they would permit him to turn state's evidence. The superintendent declines to do this, believing they have evidence enough already. A special says the other three robbers are surrounded in the mountains, and blood hounds have been sent from Morrill to drive them out.

Indian Troubles.

St. Louis, 14.—Advice from the Creek Indian nation, says: Sleeping Rabbit, one of the principal leaders of the Spichee faction, who was arrested some days ago by General Porter, commander of the Chickasaw party, was killed at Okmulgee, last week while attempting to escape. Two other leaders of the same faction have been killed. These murders, as they are called, were said to have caused Spichee men to renew action, and 200 of them are reported to be marching to Okmulgee for the purpose of bringing about a fight. General Porter, with 200 men, has gone out to meet the advancing party, and a conflict is expected.

The Coming Conclave.

San Francisco, 14.—At the regular monthly meeting of the triennial convocation committee of Knights Templars, to-day, the value of the four trophies was fixed at \$800, \$500, \$400 and \$300 respectively. The committee on transportation reported round trip tickets from New Orleans at eighty, and from all points not specially fixed, one fare for the round trip not to exceed \$75 from points west of Omaha; from St. Louis and return, \$75.
